Notification of the sale of the right to collect corundum.

It is hereby notified that the right to collect corundum in the Sidlaghatta Taluk will be sold by public auction on 2nd April 1917 at the Kolar District Office by the Deputy Commissioner as per Government Order No. G. 10217-18—Geol. 77-15-3, dated 25th January 1917.

2. The license to collect corundum in the said Taluk will be granted to the person who guarantees the highest minimum royalty.

3. If any person other than the owner of Survey No. 69 of Neradagunttahalli village of the said Taluk happens to be the highest bidder, the Government will acquire the surface right of the land in question and include it in the prospecting license to be granted to that person. The period for which the license may be granted shall be one year from the date thereof.

4. The fee for the license shall be Rs. 10 and the licensee will be required to deposit in the District Treasury the highest minimum royalty guaranteed by him within a week from the date of the sale. If the amount of guaranteed minimum royalty is not paid within a week, a resale will be held and the defaulting purchaser will be held responsible to make good any amount which may be less than the bid offered in the original sale.

5. The royalty to be paid by the licensee shall be Rs. 4 per khandi (850 lbs.) of corundum.

6. No corundum shall be removed from the licensed area without a written permit from the Amildar of the Taluk. When the licensee wishes to remove any corundum which has been collected, he shall forward to the Amildar a statement showing the amount of corundum collected from the licensed area together with the royalty due on the total quantity and request permission to remove the same from the place where it is to some specified destination. The Amildar may thereupon grant the permit required, taking such steps as he may consider necessary to satisfy himself of the correctness of the quantity to be removed.

7. If the total royalty paid during the term of the license at the rate of Rs. 4 per khandi exceeds the amount deposited according to para 4, the amount of the deposit shall be returned to the licensee upon the termination of the license. On the other hand if the royalty paid during the term of the license is less than the guaranteed minimum the deficit shall be made good from the amount deposited and the balance returned to the licensee.

8. The return of the deposit according to para 7 is subject to the due fulfillment on the part of the licensee of the terms and conditions of the license which shall be granted by the Director, Department of Mines and Geology.

MADRAS WAR FUND STAMP.

His Excellency Lord Pentland, as President of the Madras War Fund has asked us to announce that the Madras War Fund Stamp will shortly be issued and be for sale.

The stamp was designed by Mr. W. S. Hadway, Superintendent, School of Arts, Madras, and shows the "Madras" Steaming along, with "Madras War Fund" inscribed along the top centre, with a life buoy of the ship in each upper corner and a red cross in each lower corner and HALF ½ ANNA along the Centre bottom line on a scroll.

The dies for the stamp have been struck by the Hyderabad State Mint, where it is being printed free of cost by the generosity of His Highness the Nizam.

In the name of the subscribers, His Excellency hopes that all the leading firms and establishments in Madras will undertake to sell these stamps as is done in Bombay. The success attained there should stimulate every one in this Presidency to endeavour to surpass the efforts of Bombay, where over a lakh has already been obtained for the Bombay Presidency War Relief Fund by the sale of their stamp. The whole cost of production in Bombay was met by business firms and a most generous reception was accorded to the Stamp itself. One firm alone took Rs. 950 of the stamp and another undertook to affix them to every shipping order issued by them, while many firms enclosed notices of the stamp in their correspondence. All shops, clubs, hotels, etc., sell them and have distributed posters and handbills. Cinema proprietors sell them in each performance, and all the papers do their best to promote the sale, while every one can help by affixing a stamp as a seal to their ordinary correspondence.

Stamps will be sold bound up in books containing 32 stamps and will be procurable in this form from the Honorary Secretary, Madras War Fund Stamp, Government House, Madras.

Stamps will also be procurable from the Local Secretaries of the Ladies' Depot of the Madras War Fund, and His Excellency takes this opportunity of asking the Secretaries to kindly undertake this work in addition to the help they are already giving to the fund.

The arrival of the stamp will be notified in due course and application for books of stamps will then be gratefully received.

It must be clearly understood that the stamp cannot be used as a postage stamp but merely as a seal to the letter to which it is affixed to show that the writer is subscribing to the War Fund by buying and using the stamp; also by this means, he will be advertising the stamp and the War Fund all over the Presidency.

READ AGAIN—

Government Order No. Fl. 7389-437—B. 15-14-2, dated the 15th June 1915, directing the starting of a Provident Fund and sanctioning the rules relating thereto.

2. Government Order No. Fl. 499-547—B. 15-14-4, dated 2nd August 1915, permitting officers in temporary service to subscribe to the State Provident Fund provided they have been employed or are likely to be employed for at least three years.

READ—

Note dated 30th September 1916, of Mr. K. L. Datta, Special Officer, suggesting modifications in the rules relating to the Provident Fund so as to simplify work connected therewith.

Order No. Fl. 3579-627—G. F. 146-16-1, dated 23rd December 1916.

Mr. Datta's suggestions based on Government of India rules and practice are briefly as follows:—

(1) To adopt for each year a fixed sum in whole rupees as subscription instead of the present variable rate and to revise existing Rules 6 and 7 suitably.

(2) To exclude subscribers to the Railway Provident Fund from the benefits of this Fund.

(3) To omit details of monthly credits and debits in the statement of accounts furnished to each depositor annually.

(4) To substitute broad sheets one for deposits and another for withdrawals in a suitable form in the place of the ledgers now in use.

(5) To arrange names in the Index Register with reference to the first two letters for facilitating reference.

2. Government accept the above suggestions which tend to reduce work in the Account Office but for the convenience of depositors drawing small salaries of whom there is a considerable number at present they consider that deposits of four annas and of multiples of four annas for sums less than a rupee should be received.

The following additions and alterations in the Provident Fund Rules are accordingly sanctioned:—

(*a*) Insert the following as note 3 to Rule 1. The fund will not be open to subscribers of the State Railway Provident Fund.

(*b*) Substitute the following for Rules 6 and 7.

Rule 6.—The monthly rate of subscription shall be an amount expressed in whole rupees and shall remain fixed throughout the financial year. It may be any sum in whole rupees not less than 6¼ per cent of salary (*i.e.*, one anna in the rupee) and not exceeding 15⅝ per cent (2½ annas in the rupee), the rate of salary for this purpose being that drawn in respect of the 30th June of the financial year preceding. In the case of persons whose pay is not more than Rs. 10 per mensem the rates may be at ½ an anna or ¾ths of an anna in the rupee rounded off to the nearest multiple of 4 annas, below the calculated amount.

The amount which a subscriber elects to subscribe monthly for each financial year shall be assumed to be represented by the deduction which he himself causes to be made in his salary bill for the preceding June: provided that if the sum so deducted is below the minimum or above the maximum limit above prescribed the

subscriber shall be assumed to have elected to subscribe the minimum or the maximum permissible amount, as the case may be.

The amount thus elected shall not be variable later on in the year on account of any increase or decrease in the rate of salary which may ultimately be found to have been due in respect of the 30th June or which may take place during the year.

EXPLANATIONS AND EXCEPTIONS.

(*a*) *Rounding of Minimum Percentage.*—If 6¼ per cent of salary represents a sum not expressible in whole rupees, the nearest sum in whole rupees below that amount shall be taken as the minimum limit of subscription. For the benefit of depositors with small salaries the minimum subscription will be fixed at four annas and multiples thereof up to one rupee will be received as deposits.

(*b*) *New Subscribers.*—In the case of new subscribers, any broken period in the month of entry will be neglected, the first subscription being that due in respect of the first complete calendar month. The percentages will be reckoned on the rate of salary drawn in respect of the first day of such month. The rate of subscription elected will be assumed to be represented by the actual deduction which the officer himself causes to be made in his salary bill for that month, subject to correction, if necessary, as in the proviso to the substantive rule above. The amount thus elected will not be variable during the remainder of the year.

(*c*) *Foreign Service.*—In the case of an officer on foreign service on the 30th June, the percentages will be reckoned on the pay he would have drawn had he been in Mysore Service on that date.

(*d*) *Temporary Duty and Deputation.*—In the case of an officer on temporary duty under Article 254 of the Mysore Service Regulations, or on deputation on the 30th June, the percentages will be reckoned on the salary, exclusive of deputation allowance, if any, actually admissible at that date.

(*e*) *Leave and Suspension.*—On an officer's return from leave, or reinstatement after suspension, the fund payments falling due within the same financial year, in respect of the remainder of the month of joining and subsequent months, will be effected at the rate, if any, already fixed for that year under the substantive rule: otherwise at a new rate, determined in the manner laid down in the substantive rule, with reference to the rate at which salary is drawn in respect of the first day of duty.

Rule 7.—Subscription during leave of any kind will be optional. The monthly amount subscribed shall be a sum expressed in whole rupees and not exceeding the amount at which the officer was subscribing under Rule 6 prior to proceeding on leave, and not below 6¼ per cent on the salary he was drawing before proceeding on leave. An officer on reinstatement after a period passed under suspension may also be allowed the option of subscribing for that period. The monthly amount subscribed shall be a sum expressed in whole rupees and not exceeding the amount at which the officer was subscribing under Rule 6 prior to suspension and not below 6¼ per cent of the salary he was drawing before suspension.

3. Suggestions 3, 4 and 5 in paragaph 1 above refer to the manner in which accounts and registers are to be kept in the Account Office. Government consider that suggestions 3 and 5 may be adopted at once but as regards 4, *viz.*, the substitution of broad sheets for the ledger they agree with the Comptroller that the procedure suggested may be tried experimentally for the accounts of one district and if found to work successfully, extended to others.

(3) Correspondence ending with D. O. No. 9, dated 10th July 1916, from the Revenue Commissioner in Mysore.

Order No. R. 6185-233—L. R. 641-13-14, dated 16th December 1916.

(1) *Preliminary.*—The question of conferring increased powers and duties on the several classes of Revenue officers and thereby relieving the congestion of work in the offices of the controlling and appellate authorities, has, for some time past, been under the consideration of Government. Before proceeding to pass orders on the correspondence read above, the Government will review briefly the measures of decentralization effected in 1902, 1906 and 1907.

(2) *Review of the reforms effected in 1902, 1906 and 1907.*—The office of Revenue Commissioner was created in August 1902 for the more efficient control and supervision of the Revenue Department and by Regulation No. VI of 1906, (passed on 20th August 1906) the Revenue Commissioner was constituted the Chief Controlling Revenue Authority subject to Government. Certain additional powers in regard to the Revenue, Forest and Treasury administration and the disposal of certain periodical returns were subsequently assigned to him by the marginally noted orders (pages 5—15, Revenue Manual).

(1) G. P., dated 11th September 1906, No. R. 3105-44—L. R. 212-06-1.

(5) G. P., dated 2nd December 1907, No. R. 3432-41—G. F. 134-06-6.

3. *Measures of decentralization now effected.*—Owing to a general increase of work in all directions, there is much congestion in all the Revenue Offices and Government consider that it is necessary to decentralize authority in regard to the less important and routine matters of Revenue Administration and are therefore pleased to direct that certain additional powers and responsibilities should be given to Amildars, Sub-Divisional Assistant Commissioners and Deputy Commissioners as indicated below :—

(i) *Additional powers and duties to Amildars.*—The existing powers and duties of Amildars in regard to the disposal of lands, control over establishments and recovery of revenue, are contained chiefly in the marginally noted provisions of the Land Revenue Code, Land Revenue Rules and the Mysore Revenue Manual.

Land Revenue Rules—3, 7, 41, 46, 95, 96 and 99.

Ruling under Land Revenue Rules 49 and 99 (*b*).
(Page 330, Revenue Manual.)

The Government trust that the powers which under Land Revenue Rule 3, can be delegated to Amildars by the Deputy Commissioners have been already delegated to all the Amildars, *ex-officio*, in every district and that if this is not the case in any district, the Revenue Commissioner will take the requisite action.

(1) To appoint, dismiss, suspend or otherwise punish all menial servants including dafadars.

(2) To fine up to a limit of Rs. 5 any member of the Taluk Establishment other than the Taluk Sheristadar.

(3) To grant leave to any member of the Taluk Establishment (including the establishments of travellers' bungalows under the Revenue Department and the Nala Manegars) other than the Sheristadar and to appoint substitutes for the absentees, provided that in the case of officials drawing Rs. 15 or more, the Amildar shall not grant leave, or make temporary arrangements for more than a month.

(4) To grant casual leave to Taluk Sheristadars when the Amildar is at head-quarters and is in charge of the Treasury himself.

(5) To suspend village officers for a period not exceeding *one month* without reference to higher authority and to appoint substitutes.

(NOTE.—All orders of appointment, punishment, etc., passed by an Amildar should be communicated within a week to the Deputy Commissioner through the Sub-Divisional Assistant Commissioner. Either of these officers may cancel the Amildar's order giving reasons therefor, the same being communicated to him.)

(*g*) The Deputy Commissioner may, in his discretion, delegate to any Amildar or Deputy Amildar the power to confirm sale of occupancy at a public auction in cases where an upset price for the occupancy has previously been fixed by the Deputy Commissioner and the final bid is not less than such upset price.

(ii) The following additional powers are delegated to Sub-Divisional Assistant Commissioners:—

(*a*) *Powers of patronage and disciplinary control over their own establishments and the Taluk establishments.*—(1) To appoint, suspend or dismiss all officials, excluding Shekdars, drawing pay not exceeding Rs. 25.

(2) To fine officials drawing a higher pay than Rs. 25 except the Taluk Sheristadar up to Rs. 5.

(3) To grant leave to any member of the establishment and to make temporary arrangements during such period provided that in the case of Taluk Sheristadars, the Assistant Commissioner shall not grant other than privilege leave for a period not exceeding one month at a time and that in the case of other officials drawing Rs. 25 and above, he shall not grant leave for more than six months.

(4) To order the transfer of officials except Taluk Sheristadar within their Sub-Divisions and of Shekdars with the approval of the Deputy Commissioner.

(5) *Extension of the Sub-Divisional system.*—The Government consider that no Deputy Commissioner should, as a rule, be in direct charge of taluks and the Revenue Commissioner is requested to submit proposals for the extension of the Sub-Divisional system to the taluks now in the direct charge of Deputy Commissioners.

(6) *Residence of the Sub-Divisional Officers within their Sub-Divisions.*—The Government agree with the Revenue Commissioner that Sub-Divisional Officers should ordinarily reside within their Sub-Divisions. Weights and Measures in use in the State.

No. 5082-131—A. & I. 215-14, DATED 5TH JANUARY 1917.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Correspondence *ending with letter No. 2193, dated the 15th March 1916, from the Secretary, Industries and Commerce Committee, forwarding a printed report containing the Committee's recommendations in regard to the weights and measures in use in the State and an extract from the proceedings of the meeting of the Committee held on the 26th February 1916.

2. Letter No. 5431-41—A. & I. 215-14-10, dated the 29th March 1916, from the Secretary to Government, Departments of Education and Agriculture, requesting the Deputy Commissioners of Districts and District Magistrates, the Inspector-General of Prisons, the Chief Engineer and the Revenue Commissioner, to furnish their opinions on the subject.

3. Replies *received from the abovementioned officers in response to the above.

*(Printed as Annexures.)

Order No. 5082-131—A. & I. 215-14, dated 5th January 1917.

The Industries and Commerce Committee point out that, although a uniform system of weights and measures fixed by law has been in force in the State for nearly three years, very little progress has been made in the adoption of the standard system. The number of measures and weights tested and issued from the Central Jail till the end of 1915-16 is 1,46,305 and 40,000 respectively, representing a ratio of less than one-half in proportion to the population of the State as compared with that introduced in the Madras Presidency. The Committee attribute the present unsatisfactory results mainly to the absence of a definite agency to see that the use of the recognised measures is encouraged by the provision of adequate facilities to obtain them and that of false measures discouraged by frequent inspections and tests.

2. To improve the existing state of things the following recommendations are made by the Committee:—

(i) that a stamping party consisting of a clerk or tester and a gollar or artizan be entertained in each district at a cost of Rs. 22 per mensem and two additional parties at a cost of Rs. 35 per mensem each in the Cities of Bangalore and Mysore to work under the Deputy Commissioners or the Presidents of the Municipal Councils concerned, as the case may be,

(ii) that the establishment should not only test and stamp measures and weights already in use but also sell approved weights and measures to all who require them,

(iii) that a fee of half an anna be charged for testing and stamping each measure or weight and the cost of the stamping party be recovered, as far as possible, from the fees so levied and the party enlarged as the demand for their services increases,

(iv) that each party be provided with a sufficient number of weights and measures for sale to the public and the price be fixed at a rate equivalent to the cost of production *plus* half an anna for each measure or weight to meet the establishment charges,

(v) that arrangements be made to obtain the weights and measures required from private manufacturers according to approved samples and the idea of erecting a plant in the Central Jail for manufacturing the same be abandoned,

(vi) that the duty of getting approved patterns of weights and measures for distribution to the Deputy Commissioners and the Presidents of Municipalities, Bangalore and Mysore, be entrusted to the Director of

Industries and Commerce and a sum of Rs. 500 placed at the disposal of the Department by the Industries and Commerce Committee for the manufacture of samples of weights and measures,

(vii) that a sum of Rs. 16,000 be allotted for the purchase of 8,000 weights and an equivalent number of measures,

(viii) that multiples and sub-multiples of the seer by measure and weight should be easily available and should be so designed as to be distinctive in appearance and the price should not be much in excess of the metal in them,

(ix) that the use of bamboo measures permitted in the rules be prohibited in future, and

(x) that the diameter of the measuring seer should be definitely fixed as equivalent to that of the standard seer and not be allowed to vary from two-fifths to three-fifths of the length of the cylinder.

3. The Heads of Departments and the Deputy Commissioners who were consulted are generally in favour of the Committee's proposals. The Revenue Commissioner is, however, of opinion that facilities for stamping measures may be provided for the present at all taluk and sub-taluk headquarters and the establishment proposed be attached to the taluks and sub-taluks, itinerant parties being introduced later on. He also suggests that as the Revenue Commissioner's Office is not qualified to supervise the working of machinery and appliances, they may continue to be supplied by the Central Jail, a sufficient stock being maintained in each Taluk Cutcherry, and that it is not desirable to penalise unstamped weights and measures, irrespective of their being false or true.

4. Government are of opinion that the Revenue Department should be primarily responsible for the enforcement of the rules, and the control over the working of the whole system of the introduction of uniform weights and measures should therefore vest in the Revenue Commissioner. He will be requested to arrange for the supply of weights and measures for all centres. He should also arrange immediately for the preparation, in consultation with the Director of Industries and Commerce, of a complete set of samples of weights and measures including all the multiples and submultiples recognised in the rules. The Comptroller is requested to place a sum Rs. 500 at the disposal of the Revenue Commissioner for the purpose. Standards of authorised weights and measures in general use should be supplied to all Revenue Officers in Districts, all Police Stations and Patels of important villages, especially those in which weekly *santes* are held. A set of bronze weights and brass measures should be kept in every District Treasury for purposes of comparison with the working standards in the hands of the stamping parties. The sum of Rs. 16,000 proposed by the Industries and Commerce Committee for stocking a sufficient supply of weights and measures is also sanctioned.

5. Government are also pleased to approve of the recommendations of the Committee in other respects with the following modifications:—

(*a*) The supply of weights and measures in the 1st year should be obtained by inviting tenders in the *Mysore Gazette*. It is essential that standards of measures should in the first instance be fully up to specification both in material used and in quality. Suitable arrangements will be made from year to year by the Revenue Commissioner to ensure a permanent and continuous supply in future.

(*b*) No fees will be charged for testing and stamping weights and measures for a period of six months from the date of the promulgation of the Government Order, with a view to popularize and induce the people to use only approved weights and measures.

(*c*) The establishment proposed by the Industries and Commerce Committee for stamping weights and measures will be located at the headquarters of each district, the Cities of Bangalore and Mysore having a separate establishment each, which will work under the Presidents of the respective Municipal Councils. The District establishment will be under the supervision of the Treasury Assistant Commissioner subject to the general control of the Deputy Commissioner. It will remain

at headquarters but may, at the discretion of the Deputy Commissioner, be sent to any taluk headquarters or other important places in the district where a large number of weights and measures have to be stamped. A quarterly statement of weights and measures tested and issued and the number sold to the public arranged by districts should be compiled and published by the Revenue Commissioner. The Deputy Commissioners will also be responsible for a sufficient stock of weights and measures being kept at each taluk headquarter and to make suitable arrangements for their being supplied to the public. The cost of the establishment will be met from the lump sum of Rs. 16,000 referred to in paragraph 3 above and adjusted as indicated in paragraph 7 below.

(*d*) The Amildars and Deputy Amildars should visit a few important *santes* occasionally to test the weights and measures in use there. Similarly, bazaars, toddy shops, etc., should be occasionally visited for the same purpose. The assistance of Honorary Magistrates, the Members of the District and Taluk Boards and Progress Committees and Union Panchayets may be also enlisted, for inspecting weights and measures. Police Officers and Shekdars should be instructed to inspect weights and measures in the course of their itineration and induce the people to get them tested and stamped and use only authorised ones.

(*e*) Government are not prepared at present to treat the mere possession of unstamped weights and measures and their use, irrespective of their being true or false, as penal; but the question of declaring the use of unauthorized weights and measures illegal and recognising only authorized ones in drawing up documents and making their use compulsory in markets under the control of Government or local bodies may be kept in view for suitable action after the system has become familiar to the people.

6. The Inspector-General of Prisons will be relieved of the duty of supplying weights and measures from the 1st March 1917. The Revenue Commissioner is requested to send proposals separately in consultation with the Inspector-General of Prisons regarding the establishment, machinery and appliances maintained in the Central Jail for the manufacture and stamping of weights and measures and the manner in which it can be used in future.

7. As regards the funds required for giving effect to the scheme, the Revenue Commissioner will be authorised to open an advance account with the Comptroller for drawing funds as may be found necessary, the net profit or loss being adjusted at the end of each year.

8. The date on which the scheme is actually put in working order and the arrangements made for satisfactorily working out the details should be reported to Government.

9. Action will be taken in the Legislative Department for introducing the necessary changes in the rules framed under the Weights and Measures Regulation.

10. A notification may be issued by the Revenue Commissioner, giving in the Gazette a clear table of the authorised standards of weights and measures, their multiples and sub-multiples, and copies thereof obtained from the Government Press and widely circulated.

11. The Revenue Commissioner is requested to submit a report quarterly on the working of the scheme so as to reach the Secretary to Government, Departments of Education and Agriculture, on the 20th of the month following the quarter.

Weights and Measures in use in the State.

No. 5082-131—A. & I. 215-14, DATED 5TH JANUARY 1917.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Correspondence ending with letter No. 2193, dated the 15th March 1916, from the Secretary, Industries and Commerce Committee, forwarding a printed report containing the Committee's recommendations in regard to the weights and measures in use in the State and an extract from the proceedings of the meeting of the Committee held on the 26th February 1916.

2. Letter No. 5431-41—A. & I. 215-14-10, dated the 29th March 1916, from the Secretary to Government, Departments of Education and Agriculture, requesting the Deputy Commissioners of Districts and District Magistrates, the Inspector-General of Prisons, the Chief Engineer and the Revenue Commissioner, to furnish their opinions on the subject.

3. Replies received from the abovementioned officers in response to the above.

Order No. 5082-131—A. & I. 215-14, dated 5th January 1917.

The Industries and Commerce Committee point out that, although a uniform system of weights and measures fixed by law has been in force in the State for

nearly three years, very little progress has been made in the adoption of the standard system. The number of measures and weights tested and issued from the Central Jail till the end of 1915-16 is 1,46,305 and 40,000 respectively, representing a ratio of less than one-half in proportion to the population of the State as compared with that introduced in the Madras Presidency. The Committee attribute the present unsatisfactory results mainly to the absence of a definite agency to see that the use of the recognised measures is encouraged by the provision of adequate facilities to obtain them and that of false measures discouraged by frequent inspections and tests.

2. To improve the existing state of things the following recommendations are made by the Committee :—

(i) that a stamping party consisting of a clerk or tester and a gollar or artizan be entertained in each district at a cost of Rs. 22 per mensem and two additional parties at a cost of Rs. 35 per mensem each in the Cities of Bangalore and Mysore to work under the Deputy Commissioners or the Presidents of the Municipal Councils concerned, as the case may be,

(ii) that the establishment should not only test and stamp measures and weights already in use but also sell approved weights and measures to all who require them,

(iii) that a fee of half an anna be charged for testing and stamping each measure or weight and the cost of the stamping party be recovered, as far as possible, from the fees so levied and the party enlarged as the demand for their services increases,

(iv) that each party be provided with a sufficient number of weights and measures for sale to the public and the price be fixed at a rate equivalent to the cost of production *plus* half an anna for each measure or weight to meet the establishment charges,

(v) that arrangements be made to obtain the weights and measures required from private manufacturers according to approved samples and the idea of erecting a plant in the Central Jail for manufacturing the same be abandoned,

(vi) that the duty of getting approved patterns of weights and measures for distribution to the Deputy Commissioners and the Presidents of Municipalities, Bangalore and Mysore, be entrusted to the Director of Industries and Commerce and a sum of Rs. 500 placed at the disposal of the Department by the Industries and Commerce Committee for the manufacture of samples of weights and measures,

(vii) that a sum of Rs. 16,000 be allotted for the purchase of 8,000 weights and an equivalent number of measures,

(viii) that multiples and sub-multiples of the seer by measure and weight should be easily available and should be so designed as to be distinctive in appearance and the price should not be much in excess of the metal in them,

(ix) that the use of bamboo measures permitted in the rules be prohibited in future, and

(x) that the diameter of the measuring seer should be definitely fixed as equivalent to that of the standard seer and not be allowed to vary from two-fifths to three-fifths of the length of the cylinder.

3. The Heads of Departments and the Deputy Commissioners who were consulted are generally in favour of the Committee's proposals. The Revenue Commissioner is, however, of opinion that facilities for stamping measures may be provided for the present at all taluk and sub-taluk headquarters and the establishment proposed be attached to the taluks and sub-taluks, itinerant parties being introduced later on. He also suggests that as the Revenue Commissioner's Office is not qualified to supervise the working of machinery and appliances, they may continue to be supplied by the Central Jail, a sufficient stock being maintained in each Taluk Cutcherry, and that it is not desirable to penalise unstamped weights and measures, irrespective of their being false or true.

4. Government are of opinion that the Revenue Department should be primarily responsible for the enforcement of the rules, and the control over the working of the whole system of the introduction of uniform weights and measures should therefore vest in the Revenue Commissioner. He will be requested to arrange for the supply of weights and measures for all centres. He should also arrange immediately for the preparation, in consultation with the Director of Industries and Commerce, of a complete set of samples of weights and measures including all the multiples and submultiples recognised in the rules. The Comptroller is requested to place a sum Rs. 500 at the disposal of the Revenue Commissioner for the purpose. Standards of authorised weights and measures in general use should be supplied to all Revenue Officers in Districts, all Police Stations and Hotels of important villages, especially those in which weekly *santes* are held. A set of bronze weights and brass measures should be kept in every District Treasury for purposes of comparison with the working standards in the hands of the stamping parties. The sum of Rs. 16,000 proposed by the Industries and Commerce Committee for stocking a sufficient supply of weights and measures is also sanctioned.

5. Government are also pleased to approve of the recommendations of the Committee in other respects with the following modifications:—

(*a*) The supply of weights and measures in the 1st year should be obtained by inviting tenders in the *Mysore Gazette*. It is essential that standards of measures should in the first instance be fully up to specification both in material used and in quality. Suitable arrangements will be made from year to year by the Revenue Commissioner to ensure a permanent and continuous supply in future.

(*b*) No fees will be charged for testing and stamping weights and measures for a period of six months from the date of the promulgation of the Government Order, with a view to popularize and induce the people to use only approved weights and measures.

(*c*) The establishment proposed by the Industries and Commerce Committee for stamping weights and measures will be located at the headquarters of each district, the Cities of Bangalore and Mysore having a separate establishment each, which will work under the Presidents of the respective Municipal Councils. The District establishment will be under the supervision of the Treasury Assistant Commissioner subject to the general control of the Deputy Commissioner. It will remain at headquarters but may, at the discretion of the Deputy Commissioner, be sent to any taluk headquarters or other important places in the district where a large number of weights and measures have to be stamped. A quarterly statement of weights and measures tested and issued and the number sold to the public arranged by districts should be compiled and published by the Revenue Commissioner. The Deputy Commissioners will also be responsible for a sufficient stock of weights and measures being kept at each taluk headquarter and to make suitable arrangements for their being supplied to the public. The cost of the establishment will be met from the lump sum of Rs. 16,000 referred to in paragraph 3 above and adjusted as indicated in paragraph 7 below.

(*d*) The Amildars and Deputy Amildars should visit a few important *santes* occasionally to test the weights and measures in use there. Similarly, bazaars, toddy shops, etc., should be occasionally visited for the same purpose. The assistance of Honorary Magistrates, the Members of the District and Taluk Boards and Progress Committees and Union Panchayets may be also enlisted, for inspecting weights and measures. Police Officers and Shekdars should be instructed to inspect weights and measures in the course of their itineration and induce the people to get them tested and stamped and use only authorised ones.
